DEPARTMENT OF RADIATION ONCOLOGY

DR. B. BOROOAH CANCER INSTITUTE, GUWAHATI

Precision Radiation Oncology Fellowship Programme

The Department of Radiation Oncology at the DR. B. BOROOAH CANCER INSTITUTE, GUWAHATI offers a **two-year fellowship for advanced training in high precision radiotherapy.**

Program Objective

To impart focused and specialized training in the use of high precision radiation techniques through evidence based Radiation Oncology.

Selection criteria:

- Candidate should have passed his/ her MD (RT)/ DNB (RT) course from a MCI recognized department.
- The candidate will have to be registered with the AMC/ MCI for the duration of the course.
- If employed, candidate should provide a 'No objection' certificate from the current employer.

Course details:

The fellowship programme aims to develop core clinical competency in advanced radiation therapy techniques. The fellowship programme will ensure adequate training in the management of various disease sites. During the course of the programme, fellows are provided opportunity to expand their aptitude in various processes of radiation therapy procedures. This includes developing knowledge and proficiency in (not limited to)-

- Modern treatment delivery hardware and software
- Patient setup and immobilization techniques
- Imaging modalities for target volume and organ-at-risk (OAR) determination and delineation
- Dose prescription for specific clinical sites
- Treatment planning and delivery Techniques
- Plan evaluation and quality assurance
- Treatment verification imaging/dosimetry
- Evidence based medicine and new technology

A designated faculty member will act as mentor for the candidate for the duration of the programme. As part of the training, the candidate has to attend routine out-patient clinic, Joint clinics (tumour board meeting), observe and take part in the decision making for the use of radiation therapy in various disease sites. The hands-on training allows the candidates to examine and treat patients under the supervision of a faculty member.

They are also encouraged to participate in academic activities carried out in the department as part of the routine post graduate training of the department (seminars, journal clubs, case presentations etc.) and other academic activities (including workshops and conferences) in the Institute. Fellows are allowed access to the institutional library and digital library after due registration.

Periodic appraisal meetings are conducted to evaluate progress and also to obtain feedback of any challenges that maybe experienced by the candidate.

The candidate is also expected to pursue a project under the guidance of the mentor, and submit the same at the end of 2 years. They are also expected and encouraged to publish this work in a peer reviewed journal and present in National/ International meetings.

For the successful completion of the training programme, candidates are required to appear and clear a theory and practical assessment examination.

Selection process

Consideration of fellowship candidates occurs each year in May for a start date of first of July. The departmental selection interviews candidates and extends offers based on the outcomes from the interviews.

Duration: 24 months (2 years) starting July of each year.

Fees: As per rules of the institute.

Boarding & Lodging:

Accommodation will be provided to the candidates in the campus, provided vacancy exists.
