PARAMEDICAL COURSES 2020

Dr B Borooah Cancer Institute

A Grant-in-Aid Institute of Department of Atomic Energy, Govt. of India
and a Unit of Tata Memorial Centre (Mumbai)
A. K. Azad Road, Gopinath Nagar, Guwahati - 781016

INSTITUTION- PROFILE

LOKABANDHU
Dr. Bhubaneswar Borooah (1893-1956)
a luminous soul who lived for others,
alleviating human pain and sufferings
remains as living spirit
in our mission
to care, cure, comfort and console
the human race.

জ্যোতিয়মান আত্মা, লোকবন্ধু
ডাঃ ভুবনেশ্বৰ বৰুৱা (১৮৯৩-১৯৫৬)
অগণন আৰ্হি লোকৰ বাবে
এগৰাকী দেৱদূত।
আমাৰ এই মানৱ সেৱা আৰু গুণ্ৰূপ
পৰিক্ৰমাত তেওঁ এক অক্ষুৰিত,
প্ৰেৰণাৰ অমল উৎস।

SCULPTOR: SURENDRA

Dr. Bhubaneswar Borooah Cancer Institute (BBCI) was set up by a voluntary organization called 'Dr. B. Borooah Cancer Society Trust'. Dr. Bhubaneswar Borooah (4th September 1893 - 25th September 1956) was a great physician, freedom fighter and philanthropist of Assam. The Institute was recognized as Regional Cancer Centre by the Ministry of Health & Family Welfare, Govt. of India in the year 1980. On 6th of August, 1986 the Institute was handed over to the Government of Assam by the B Borooah Cancer Society Trust retaining its autonomy. The First Tripartite Agreement for revitalization of the Institute involving the North Eastern Council, Government of Assam and the Department of Atomic Energy, Govt. of India became operational from November 1989. This tripartite arrangement for funding and management of the Institute continued till 2017. On a historical development, Dr. Bhubaneswar Borooah Cancer Institute (BBCI) on the 27th November 2017 has become a central institute under the Department of Atomic Energy, Government of India and as a unit of Tata Memorial Center, Mumbai, following a decision of Cabinet Committee under the Chairmanship Hon'ble Prime Minister of India Shri Narendra Modi. With his landmark decision, the hospital would be able to provide affordable cancer care across the entire North Eastern (NE) states with a holistic approach.

The Institute is a 230-bedded Hospital, land covering an area of 14.2 acres (43 bighas), located at Gopinath Nagar, Guwahati, Assam. About 12,000 new and 80,000 old cancer patients visit the Institute every year. The hospital provides Preventive, Diagnostic, Therapeutic, Rehabilitative and Palliative Support Services to all patients in addition to Teaching, Training and Research. Hence, the hospital is equipped with almost all necessary and latest technologically advanced machineries, developed in cancer fields required to treat patients in a holistic approach.

The Institute conducts various academic courses like MD in Radiotherapy, M.Ch in Surgical Oncology, DM in Medical Oncology, 2 Years Post Graduate Fellowship Programme in Head & Neck Oncology, Gynaecologic Oncology, Surgical Oncology, Medical Oncology and Onco-Pathology in collaboration with Tata Memorial Hospital, Mumbai, Ph.D, M.Sc in Radiological Physics and many other paramedical courses like Diploma in Medical Laboratory Technology (DMLT), Diploma in X-Ray and Imaging Technology, Diploma in O.T. Technology, which are affiliated to Srimanta Sankardeva University of Health Sciences, Assam and Gauhati University.

Dear Students,

A hearty welcome to Dr. B. Borooah Cancer Institute.

Dr. Bhubaneswar Borooah Cancer Institute (BBCI), a premier cancer institute of North-East India was conceived way back in 1958. Set up by a voluntary organization called 'Dr. B. Borooah Cancer

Society Trust' in the name of Dr. Bhubaneswar Borooah (4th September 1893 - 25th September 1956) who was a great physician, freedom fighter and philanthropist of Assam, the Institute was formally inaugurated on 18th November 1973 and became operational from 1974. The Institute was formally taken over by Department of Atomic Energy, Govt. of India on 27th November 2017 as a unit of Tata Memorial Centre, Mumbai. From a humble beginning to cater to the needs of the cancer patients of Northeast India, BBCI has come a long way- it has now grown into an institute of national importance. The Institute located at Gopinath Nagar, Guwahati, Assam is a 230-bedded hospital at present and sees about 12,000 new and 80,000 old cancer patients every year.

Realizing the acute shortage of trained doctors, nurses and technical staff in the field of Oncology in the North-eastern states of India, Dr.B.Borooah Cancer Institute has always felt the urge to generate manpower in this field in this region of the country.

The Institute at present conducts MD in Radiotherapy, M.Ch in Surgical Oncology, and DM in Medical Oncology. It is the first institute in the entire Eastern India to be granted permission to start courses in Radiation Oncology, Medical Oncology and Surgical Oncology by the Ministry of Health and Family Welfare, Govt. of India. Dr.B.Borooah Cancer Institute also conducts 2 Year Post Graduate Fellowship Programme in Head & Neck Oncology, Gynaecologic Oncology, Surgical Oncology, Medical Oncology and Onco-Pathology in collaboration with Tata Memorial Hospital, Mumbai.

MSc in Radiological Physics, recognized by the Atomic Energy Regulatory Board, Govt. of India was started in the year 2012 in collaboration with Gauhati University.

To understand the cause of cancer and its biology in depth, I am proud to inform you that Dr.B.Borooah Cancer Institute will be one of the few centres in the country to conduct a course in MSc Cancer Biology in collaboration with Department of Bioengineering and Technology, GUIST, GU from this year, i.e. 2018 onwards.

We understand that the paramedical staff is of equal importance in the smooth running of a medical institute. To improve the standard of care of patients attending a hospital, we are also conducting courses in Radiotherapy Technology,

Radiography, Medical Laboratory Technology, OT & CSSD Technician, Anaesthesia technician to name a few which are affiliated to either Gauhati University or Srimanta Sankardev University of Health Sciences, Assam.

Students undergoing nursing courses in various Nursing Colleges of N-E Region come regularly to BBCI to acquire knowledge in the field of Nursing Oncology as part of their training. We have also signed an MoU with Asian Institute of Nursing Education, Guwahati with an aim to start a One-Year Post-Basic Training in Nursing Oncology in the near future.

We also have several short term Certificate courses for both the doctors and the paramedical staff. Summer training is imparted in Cancer Registry, Epidemiology & Biostatistics; Palliative Care; and Essentials of Molecular Biology Technique. Students from allied courses like MSW, Biotechnology from several institutes from all over India regularly visit BBCI for doing their internship projects.

Researchers from within as well as outside the institute are pursuing various research works including PhD at BBCI. A DBT Centre for Molecular Biology and Cancer Research which was started in February 2010 is involved in many research projects at present.

For clinical, academic and research collaboration, Dr. B. Borooah Cancer Institute has signed memorandum of understanding with the Dutch School of Gynaecologic Oncology and Pelvic Surgery, Netherlands, Manitoba University, Canada, Amrita Institute of Medical Sciences, Kochi, Indo-American Cancer Institute, Hyderabad, Institute of Advance Study in Science & Technology, Assam down town University, University of Science and Technology, Meghalaya and National Institute of Pharmaceutical Education and Research, Guwahati. The Institute has more than 200 research publications in national and international journals. The Institute has residential accommodation for limited number of students within the campus. It also has a digital library.

Many of the students who have successfully completed various professional courses from BBCI have been absorbed in State and National Institutes of repute in the country.

I assure you that this will be the right platform for gaining knowledge in various fields of oncology which will strengthen our mission to fight cancer.

I welcome you once again to Dr.B.Borooah Cancer Institute and be a part of the crusade against cancer.

Dr. A. C. Katak
Director, BBCI

TECHNICAL COURSES

The technical courses of Dr. B. Borooah Cancer Institute produce highly skilled and efficient technical personnel required to operate the different sophisticated equipment and perform intricate procedures associated with cancer management.

COURSES AFFILIATED TO SRIMANTA SANKARDEVA UNIVERSITY OF HEALTH SCIENCE, ASSAM

a) POST GRADUATE DIPLOMA PROGRAMME IN RADIOGRAPHY

Imaging plays an important role in the modern day diagnosis and treatment. The armamentarium of X-ray, Ultrasonography, CT Scan, MRI, PETscan, isotope scan etc, has become indispensable to modern medicine. All these sophisticated systems require expert handling in order to deliver high quality and appropriate images which can ensure proper diagnosis and assessment. The following courses are designed to create technical professionals of high calibre who will become assets to any radio-diagnosis center.

Highlights:

- Physics of Radiology
- Anatomy, Physiology and Pathology
- Radiographic Techniques (also in CT, MR and Mammography).
- Dark room procedure and Radiotherapy.
- Special Diagnostic Imaging.
- Patients Care & Ethics
- Special Diagnostic Imaging and Patients care & Ethics.

Duration: 2yrs

Seat Capacity: 6(six)

Fee: Admission fee Rs.5500/- (one time) + Tuition Fee Rs.1200/- (per month)

Eligibility: Graduate in Science from a recognized University

Session: Starts from August

b) DIPLOMA COURSE FOR ANAESTHESIA TECHNICIANS

This course creates technicians with specialized knowledge, skill and attitude in anaesthesia technology which enable a technician to work efficiently in any operation theatre in any hospital across the world. The course is of four semesters with assessment examination at each semester end.

Subjects at a glance: Basics of Anatomy and Physiology, principles

and practice of sterilization and disinfection, General pharmacology, Anaesthesiology, Medical disorders and Critical care.

Examinations: Candidates with 80% attendance will be eligible for corresponding semester examination. A candidate is required to secure a minimum of 50% marks individually in the theory and the practical examinations to pass.

Duration: 2 Yrs

Seat Capacity: 10(Ten)

Fee: Admission Fee Rs.5000/- (one time) + Tuition fee Rs.1000/- (per month).

Eligibility: 10+2 in Science stream from any recognized board/council with minimum 50% marks, B.Sc graduate can also apply.

Session: Starts from August.

c) DIPLOMA PROGRAMME IN RADIOTHERAPY TECHNOLOGY

Highlights:

- Introduction to Anatomy, Physiology, Pathology and Clinical Oncology.
- Principles of medical physics.
- Radiation unit & measurement.
- Imaging in Oncology.

- Basic Radiotherapy technique.
- Radiation protection & biology.
- Clinical Radiation Oncology.
- Advance Radiation therapy techniques.

Duration: 2 Yrs.

Seat Capacity: 10(Ten).

Fee: Admission Fee Rs.5000/- (one time) + Tuition fee Rs.1000/- (per month).

Eligibility: 10+2 in Science stream from any recognized board/council with minimum 50% aggregate.

Session: Starts from August.

Age: 17 -30 yrs.

d) DIPLOMA COURSE IN MEDICAL LABORATORY SCIENCE (DMLS)

What is Medical Laboratory Technology?

Medical laboratory Technology is a that part of paramedical science which deals with the laboratory investigations to be used for the proper diagnosis of diseases. It is one of the fast growing fields across the globe in health care area . The technologist is a professional who perform as well as analyses the various tests helping the physicians to arrive at the correct diagnosis and hence helping in appropriate treatment for the patients. So, the role of technician is vital in health care services. The trained technologist has to handle complex electronic equipments, computer and different types of microscopes and in documentation of the reports. The students would be trained in laboratory management and also carry out complex tests for deadly diseases like AIDS/HIV, diabetes, cancer, etc.

Brief description of the course:

The course is an in-service training programme. The student is provided with classroom teaching and supervised practical experience. Periodic internal examinations are conducted and the performance is evaluated at the end of each year of training with the final exam being conducted at the end of two year with six months of internship. Those students who fail to satisfy the evaluation committee may be detained for a period of six months. Like all hospital staff, students will be exposed to patients with communicable diseases and will be processing biological samples. The attendance of the candidates , mandatory to appear for the exam is 75% each year, failure of which the candidate will not be allowed to appear for the exam.

There are mainly three main subjects such as :

1. Biochemistry.
2. Microbiology including General Microbiology, Bacteriology, Immunology, Mycology, Virology and Parasitology and
3. Pathology including Haematology, Clinical Pathology, Cytology, Histopathology and Blood Banking.

The course involves hands on training in:

Cytopathology, Histopathology, Frozen Sections, Immunohistochemistry, Cytochemistry, Tumor Markers, Hematology, Biochemistry, Clinical Pathology, Microbiology, Serology , Blood Banking and Transfusion Service.

Aims of the course:

- To train students as technologists who are competent in all aspects of medical diagnostic laboratory testing.
- To instil in the student professional standards of behaviour, conduct and work attitude

Learning Outcome:

At the end of the course the student will be able to -

- Apply the knowledge acquired from this training to successfully complete clinical assessments.
- Assess the condition and pathology of the patient presented for investigations in this field.
- Shoulder responsibility for the welfare of patients undergoing the listed investigations.

Duration: 2 Yrs followed by 6 months internship

Minimum of 720 hours of internship should be completed by the candidate to be awarded a diploma.

Total numbers of hours-2896 for the total course

Seat Capacity: 10(ten)

Fee: Admission Fee Rs.5000/-(one time) + Tuition fee Rs.1000/-(per month)

Eligibility criteria for application :

Basic educational qualification

- Pass in 10+2 or its equivalent with Physics, Chemistry and Biology from a recognized University or Board of Education with a pass percentage of 50% and above.
- The candidate must be 17 years old and less than 25 years of age on the date of commencement of the course.
- The candidate must be fluent in English, as the medium of instruction is English.

Teaching methods:

A unique aspect of all these courses is the integration of academic work with structured clinical work. It involves a series of classroom lectures and discussions combined with guided practical training in the various techniques and procedures as it applies to each course. Throughout the training period, students gain practical experience by participating in routine departmental work through a series of postings in the various sections of the concerned department. The students are supervised by trained staff working in these sections. This hands on training gives the student invaluable experience by the time the course is completed.

Selection criteria:

There are total 10 seats available every year for the DMLT course. The selection process will be based on interview or separate entrance test depending on the number of candidates. The decision of the selection committee will be considered final based on the performance of the candidates.

Commencement :

All courses commence in August.

Medium of instruction:

English shall be the medium of instruction for all the subjects of study and for examination of the course.

Precautions

As all the courses are hospital based, they involve interaction with patients and their attendants and/or collection/processing of biological samples and/or performing procedures on patients. Hence students are expected to observe universal precautions against communicable diseases.

Highlights:

Ready availability of job opportunities in our country and abroad

The Diploma can be followed by a B.Sc. degree and even a Doctorate offered by several Universities

e) ONE YEAR DIPLOMA IN OPERATION THEATRE AND CSSD TECHNOLOGY

Central Sterile Supply Department is a vital area central to hospital infection control. The course is designed to prepare attitude in basics of operation room and CSSD techniques including biomedical waste disposal.

Subjects at a glance:

Basic of Anatomy and Physiology, Applied Microbiology and sterile supply services, foundations in CSSD, operation theatre, biomedical waste disposal.

Examination:

Candidates with minimum 80% attendance will be eligible to appear in the final examination, Candidate shall secure a minimum of 50% marks individually in the theory and practical examination to pass.

Duration: 1 Year

Seat Capacity : 10(TEN)

Fee: Admission Fee Rs.5000/-(one time) + Tuition fee Rs.1000/-(per month)

Eligibility: 10+2 in Science stream from any recognized board/council with minimum 50% marks in HSLC, B.Sc graduate can also apply.

Session: Starts from August

COURSE AFFILIATED TO GAUHATI UNIVERSITY

POST GRADUATE DIPLOMA PROGRAMME IN RADIOTHERAPY

In recent decades, radiation therapy has come to play an increasingly vital role in the treatment of cancer. Evolving into an amalgam of radiation physics, radiation biology and clinical radiation, radiotherapy today is a highly sophisticated and expanding ground with strong prospects for science scholars interested to apply their knowledge and explore. Currently there is a huge demand for technically qualified and competent personnel in radiation oncology setups across the country and with ever rising need for more oncology facilities; this demand is set to increase exponentially. This course prepares for technical operation of radiotherapy hardware and their applications.

Highlights:

Introduction to Anatomy, Physiology, Pathology and Clinical Oncology.

Principles of Medical physics.

Radiation unit & measurement.

Imaging in oncology.

Basic Radiotherapy technique.

Radiation protection & biology.

Clinical Radiation Oncology.

Advance Radiation therapy techniques.

Duration : 2 yr

Seat Capacity : 10 (Ten)

Fees : Admission fee Rs. 5,500/- (one time)
+ Tuition Fee Rs. 1,200/- (per month)

Eligibility : Graduate in Science from a recognized University with Physics as major with 50% marks.

Session : Start in August

GUIDELINES FOR FILLING FORM

1. Candidates are to download 'APPLICATION FORM' from BBCI website www.bbcionline.org.
2. Forms to be duly filled and signed and submitted as attachment to bbciparamedical@gmail.com as per guidelines given or may be downloaded filled and sent by post / courier with all documents attached.
3. Please fill the form in BLOCK LETTER LEGIBLY IN BLUE/BLACK BALL POINT PEN
4. Affix recent colour photograph in space provided, don't staple.
5. Please mark preference of course in box provided as 1, 2, 3 etc.
6. A fee of Rs. 250/- per course applied for is to be paid.
7. Fee may be paid online, details are provided in the form Transaction number should be mentioned in the space provided..
8. For forms sent by post or courier DD of requisite amount may be attached and should reach by last date of submission.

Postal Address

The Deputy Director (Academics)

Dr. B. Borooah Cancer Institute
A. K. Azad Road, Gopinath Nagar
Dist - Kamrup (M), Guwahati-781016
Assam, India

Application Form No. : _____

Dr Bhubaneswar Borooah Cancer Institute

A Grant-in-Aid Institute of Dept. of Atomic Energy, Govt. of India
and a Unit of Tata Memorial Centre (Mumbai)
Guwahati-781016, Assam, India

1. Name of the course applied for : PARA MEDICAL SCIENCES

Please fill SI.No.9 in detail

2. Marks obtained H. S. (Science)/BSc:

Total Marks : _____ Percentage : _____

3. a) Title Preferred (Tick and one in the appropriate box)

Mr. Mrs. Ms.

b) First Name
(Block Letters)

c) Middle Name
(Block Letters)

d) Last Name
(Block Letters)

4. Date of Birth : / /
(DD/MM/YYYY)

Sex : Male Female

LIST OF TEACHING STAFF OF DR.B.BOROOAH CANCER INSTITUTE

DEPARTMENT OF HEAD & NECK ONCOLOGY

1. Dr. T. Rahman
2. Dr. A. K. Das
3. Dr. R. J. Das
4. Dr. Kishore Das
5. Dr. Anupam Das
6. Dr. Kaberi Kakoti

DENTAL & PROSTHETICS SURGERY

1. Dr. Punit Kumar Singh

DEPARTMENT OF MEDICAL ONCOLOGY

1. Dr. B. J. Saikia
2. Dr. Munlima Hazarika
3. Dr. P. S. Roy
4. Dr. Asif Iqbal

DEPARTMENT OF GENERAL SURGERY

1. Dr. B. Borthakur
2. Dr. J. Purkayastha
3. Dr. Abhijit Talukdar
4. Dr. Deep Jyoti Kalita
5. Dr. Gaurab Das
6. Dr. Kiran Kamalasanan

DEPARTMENT OF PATHOLOGY

1. Dr. J. D Sharma
2. Dr. Anupam Sarma
3. Dr. Shiraj Ahmed
4. Dr. Lopa Mudra Kakoti
5. Dr. Roopam Deka
6. Dr. Ranjita Sarma

DEPARTMENT OF BIOCHEMISTRY

1. Dr. Swamik Das

DEPARTMENT OF BLOOD BANK

1. Dr. Chandana Kalita

DEPARTMENT OF MICROBIOLOGY

1. Dr. Rashmi Snata Barman
2. Dr. Amrita Talukdar

DEPARTMENT OF RADIOTHERAPY

1. Dr. A. K. Kalita
2. Dr. M. Bhattacharyya
3. Dr. Partha Pratim Medhi
4. Dr. Gautam Sarma
5. Dr. Jyotiman Nath
6. Mr. Shachindra Goswami
7. Ms. Mithu Borthakur
8. Mr. Pranjal Goswami
9. Mr. M. Nara Singh
10. Mr. Shashi Bhushan Sharma
11. Mr. Bhaveswar Yadav

DEPARTMENT OF CANCER REGISTRY, EPIDEMIOLOGY & BIOSTATISTICS

1. Dr. Manigreeva Krishnatreya

DEPARTMENT OF RADIOLOGY & IMAGING

1. Dr. B. K. Choudhury
2. Dr. Kabita B. Baruah
3. Dr. Geetanjali Barman

DEPARTMENT OF NUCLEAR MEDICINE & MOLECULAR IMAGING

1. Dr. S. Ejanbemo Ezung

DEPARTMENT OF GYNECOLOGIC ONCOLOGY

1. Dr. A. C. Katak
2. Dr. Debabrata Barmon
3. Dr. Upasana Baruah
4. Dr. Dimpy Begum

DEPARTMENT OF PALLIATIVE MEDICINE

1. Dr. K. Bhagabati
2. Dr. Sabitri Sarma

DEPARTMENT OF ANAESTHESIOLOGY

1. Dr. Anupam Das
2. Dr. Minati Baruah
3. Dr. Marie Ninu
4. Dr. Dockney Chintey
5. Dr. Tridip Jyoti Borah
6. Dr. Barnali Kakati
7. Dr. Sonai Datta Kakati

DEPARTMENT OF PREVENTIVE ONCOLOGY

1. Dr. S. M. Bhagabati

DEPARTMENT OF PLASTIC AND RECONSTRUCTIVE SURGERY

1. Dr. Sumanjit Boro

Dr. B. Borooah Cancer Institute
